**EQ1-IG Series SQ1-IG Series** 

# Engaging Interactive Multi-Touch Displays for high efficient Team work

#### InGlass™ - the ultimate in creative and collaborative presentations

- Ultra-precise pen writing accuracy and a no-lag touch
- One of the most natural writing experiences available, with paper-like touch and drawing feel on the anti-glare surface.
- Differentiates between finger, pen, and hand eraser.
- Interesting alternative to Infrared with more touch points, pinching, stronger resistance to ambient light, better image quality and durability.

#### High precision and reliability for collaboration

- 4k ultra HD resolution delivering the highest detail and image quality.
- The distance between the LCD panel and inner part of the glass is very small, resulting on an unmatched accuracy of touch with a tolerance below 1mm.
- 20 simultaneous touchpoints increases usability and participant involvement.
- The 3mm-thick premium glass is thick enough to withstand pressure of hands and palms leaning on screen, yet offers a very soft surface for writing.

#### Advanced features and extensive connectivity

• These multi-touch displays includes a wide range of flexible functions and extended connectivity from the main EQ1 and SQ1 series.

**SQ1-IG** 4K resolution, 500 cd/m², 24/7 operation, in large formats 86", 75", 65", 55". including an Intel® (Smart Display Module) SDM to easily integrate a slot-in computer. **EQ1-IG** 4K resolution, 350 cd/m², 16/7 or 24/7 operation, in large formats 86", 75", 65", 55". Comprehensive USB and video connectivity to connect devices to run collaboration

- Free Panasonic Whiteboard Software for Windows or Mac, including a whiteboard mode, PowerPoint presentation mode as well as Video and Screen Capture functions.
- Panasonic recommends the Flatfrog Whiteboard application for the most precise writing experience

With the combination of better image quality, robust build – and resistance to ambient light – there are now fewer barriers than ever to true creative interaction.

Best touch features for collaboration: annotations, accuracy, immediacy, flat design

# EQ1-IG Series

Seamless integration in any modern cooperative and education environment
